- a. The Contractor shall maintain a Preferred Provider Organization (PPO) network in the Grand Division(s) covered by this Contract, as well as a broader national PPO network for members residing or traveling outside of the grand division, that provides high quality, cost effective medical services, and provides adequate geographic and service access to members. Unless otherwise directed by the State, all networks shall include other commercial clients and cannot be established only for State members.  - (2) wellness visit: two (2) months
 - (3) primary care routine visit: fourteen (14) days
 - (4) specialty care routine visit: thirty (30) days
- e. As directed by the State, the Contractor shall develop and implement a high performance or tiered network of providers and/or facilities as measured by their adherence to a standard set of evidence-based clinical protocols, cost efficiency (e.g., cost per episode) and quality measures. The Contractor shall collaborate with and assist the state and its other vendor partners in the development of such standard protocols and measures and implement any associated member incentives.
- f. The Contractor may develop a high performance or tiered network of providers and/or facilities without State direction. The Contractor shall only authorize and pay for organ transplants performed by a transplant program that is approved by Medicare for the applicable transplant (e.g., heart/lung, heart-only, kidney-only). The Contractor may require additional criteria on their network providers over and above the requirements listed above.

The Contractor shall not implement such value oriented provider payments without prior approval from the State.
- m. The Contractor shall report descriptive information and data about its value oriented provider payments in sufficient detail to enable the State to make an approval determination as well as adequately monitor the Contractor's program and billings following approval. - o. Covered benefits received through network providers located in states contiguous to the State of Tennessee shall be consistent with covered benefits provided through network providers located in Tennessee. The Contractor shall include in its provider network providers including, but not limited to, physicians and hospitals, located in states contiguous to the Grand Division(s) covered by this Contract.

The Contractor shall include providers with service locations in the following statistical areas, as defined by the U.S. Office of Management and Budget (OMB):

- Alabama – Huntsville Metropolitan Statistical Area (MSA); Decatur MSA; Florence-Muscle Shoals MSA
- Kentucky – Clarksville MSA; Bowling Green MSA

- p. The Contractor shall submit a quarterly network changes update report to the State by the 20th of the month following the end of the quarter that includes any changes in the Contractor's provider network (refer also to Contract Attachment C, Reporting Requirements).
- q. The Contractor shall notify the State in writing of any termination of a hospital or physician group of twenty (20) or more, regardless of whether the termination is initiated by the Contractor or the provider, within one (1) business day of becoming aware of the termination. The Contractor shall also provide written notice to members who received treatment from the hospital or physician group within the last six (6) months. Unless otherwise directed by the State, the Contractor shall mail the notice to members no less than thirty (30) calendar days prior to the effective date of the termination.
- r. The Contractor shall not take action to disenroll network primary care providers or hospital providers except for good reason, which may include: inability to negotiate continuance of its provider agreement; provider failure in the credentialing/recredentialing process; non-compliance with provider agreement requirements; provider request for disenrollment; member complaints; suspicion of provider impairment; loss of license or exclusion from participation in Medicare or Medicaid pursuant to Sections 1128 or 1156 of the Social Security Act; or those who are otherwise not in good standing with the Public Sector Plans.
- s. The Contractor shall give affected providers written notice if it declines to include individual or groups of providers in its network.
- t. The Contractor shall submit a report annually identifying the percentage of network physicians not accepting members as new patients. The report shall identify the percentages by each of the state grand regions served by the Contractor.
- u. The Contractor shall submit to the State an annual provider turnover report that includes the Contractor's voluntary and involuntary turnover rate by provider type (refer also to Contract Attachment C, Reporting Requirements).
- v. The Contractor shall maintain NCQA's Credentials Verification Organization certification during the term of this contract. If the Contractor is not certified as of the start date of the contract, they must obtain the certification no later than December 31, 2016, or at a later date if approved by the State.
- w. The Contractor shall contract only with providers who are duly licensed to provide such medical services and shall require that all providers maintain all licenses and accreditations in existence at the time of selection as a network provider in order to continue their status as a network provider. The Contractor shall perform on a continuous basis appropriate provider credentialing that assures the quality of network providers. The Contractor shall complete processes necessary to reconfirm the licensure, accreditations, credentials, and standing of network providers no less frequently than every three (3) years.
- x. The Contractor shall maintain face-to-face, telephonic, and written communication with providers to ensure a high degree of continuity in the provider network and ensure that the providers are familiar with applicable requirements.
- y. The Contractor shall notify all network providers of, and enforce compliance with, all provisions relating to utilization management and other procedures as required for participation in the Contractor's provider network.

- z. The Contractor shall require all network providers to file claims associated with their services directly with the Contractor on behalf of members.
- aa. The Contractor shall identify and sanction network providers who fail to meet pre-determined, minimum standards relating to referrals to out-of-network providers.
- bb. The Contractor shall notify the State in writing at least thirty (30) days prior to any material adjustments to any provider payment terms, including but not limited to provider fee schedules, contract rates, other provider payment arrangements, discounts, rebates, refunds, or credits negotiated with the provider, and the manner in which such adjustments are reasonably likely to affect the cost of claims payments by the State. Such notification shall be made for all hospitals or physician groups of twenty (20) or more.
- cc. If the Contractor is unable to deliver covered benefits through network providers, the Contractor shall arrange for such services to be rendered by out-of-network providers. When the Contractor arranges for covered benefits to be provided through an out-of-network provider, the member's financial liability shall be limited to any cost-sharing that would have applied had the service been rendered by a network provider (e.g., in-network co-insurance percentage and in-network deductible amount), expenses determined not to be medically necessary and expenses that exceed the maximum allowable charge, unless otherwise directed by the State. The Contractor shall report to the State on a monthly basis all unique care exception requests and whether they were granted or denied (refer also to Contract Attachment C, Reporting Requirements).
- dd. In no case shall network providers balance bill for covered benefits. Rather, the member's liability shall be limited to the allowable member cost-sharing.
- ee. The Contractor shall have available for implementation at the State's request a Telemedicine/TeleHealth benefit option that meets or exceeds T.C.A. and State of Tennessee Medical Board requirements and regulations.

 - (4) Review of urgent and/or emergency admissions, on a retroactive basis when necessary, in order to determine medical necessity for the service.
- d. The Contractor shall have in place an effective process that identifies and manages members in need of skilled nursing facility care. This shall include:

 - (2) Concurrent review during the course of a patient's skilled nursing facility stay, where qualified medical management staff coordinate care with the skilled nursing facility staff and patients' physicians; this shall include review of the continued skilled nursing facility stay of patients and identification of medical necessity for stays as well as available alternatives.
 - (3) Discharge planning, providing a process by which the Contractor's utilization management staff work with the skilled nursing facility, patient's physicians, HM/W vendor, as requested by the State, patient's family, and appropriate community resources to coordinate discharge and post-discharge needs of the patient and reduce the likelihood of readmission.
- e. The Contractor shall not require pre-admission certification for inpatient hospital admissions for the normal delivery of children.
- f. The Contractor shall require prior authorization of (i) outpatient high-technology diagnostic imaging, including but not limited to Magnetic Resonance Imaging (MRI), Computerized Tomography (CT), Positron Emission Tomography (PET) scans, and nuclear cardiac imaging studies; (ii) home health services, (iii) miscellaneous J-codes and (iv) other services specified by the State. Subject to State approval, the Contractor may require prior authorization of other services.
- g. Unless otherwise directed by the State, the Contractor shall adhere to the following standards for timeliness of UM decision making:

 - (2) For urgent prior authorization decisions, the Contractor shall make the decision within seventy-two (72) hours of receipt of the request
 - (3) For urgent pre-certification or concurrent review decisions, the Contractor shall make the decision within twenty-four (24) hours of receipt of the request;
 - (4) For retroactive decisions, the Contractor shall make the decision within thirty (30) calendar days of receipt of the request.
- h. If the Contractor is missing any information necessary to make a pre-certification, prior authorization, or concurrent review decision, the Contractor shall immediately contact the provider to obtain the missing information. If the information is still missing one (1)

business day after contacting the provider, the Contractor shall make at least one follow-up contact to obtain the missing information.

- i. The Contractor shall have an electronic UM system that contains complete (*i.e.*, sufficient to accurately portray the events of the review during an independent medical audit of the UM record) documentation of the review process by capturing administrative and clinical data as well as clinical notes by the UM staff.
- j. The Contractor shall use protocols that are diagnosis/procedure specific, consistent with efficient medical practices, and that provide nurse reviewers with guidelines regarding the type of care that is indicated during each day of treatment. Physician reviewers shall be actively involved in the review process in accordance with industry standards. Any provision of the Public Sector Plan Documents and any protocol adopted by the Benefits Administration Division shall take precedence over any protocol used by the Contractor.
- k. The Contractor shall maintain a comprehensive internal audit program for utilization management services and shall take prompt corrective action to correct any deficiencies or quality of care issues.
- l. The Contractor shall submit to the State, at least two (2) months prior to the go-live date, a copy of all documents describing its UM program, evaluation methodology, and audit plan. The State reserves the right to review these documents and require changes, where appropriate. The Contractor shall notify the State, in writing, within thirty (30) days of any significant changes to its UM program. The State reserves the right to review the change and require changes, where appropriate.

- a. The Contractor shall maintain a comprehensive quality assurance program that prospectively, concurrently and retrospectively ensures the quality of care provided by network providers as well as the quality of services provided by both network providers and the Contractor.
- b. The Contractor shall submit to the State, at least one (1) month prior to the go-live date, a summary of its quality assurance program. The State reserves the right to review the

program documents and require changes, where appropriate. The Contractor shall notify the State, in writing, within thirty (30) days of any significant changes to its quality assurance program. The State reserves the right to review the change and require changes, where appropriate.

The Contractor shall also participate in an annual site visit to address the specific next steps and follow up on issues identified during the most recent eValue8 process.
- g. The Contractor shall adopt and implement evidence-based clinical practice guidelines, protocols or pathways incorporating national criteria and local physician input as appropriate. Any provision of the Public Sector Plan Documents and any guideline, protocol, or pathway adopted by the Benefits Administration Division shall take precedence over any guideline, protocol, or pathway used by the Contractor. The Contractor's website (see Contract Section A.16.) shall contain all such guidelines, protocols, or pathways that are applicable to the Public Sector Plans.
- h. The Contractor shall maintain standards and protocols for tracking all incidents/potential issues with network providers (e.g., member complaints, irregular billing practices, and quality of care issues). In addition to responding to each incident/issue, the Contractor shall initiate a provider review when the number of incidents/issues reaches a threshold defined in advance by the Contractor. The Contractor shall specify the content of this review, which may range from medical chart audits to an outcomes analysis.
- i. At the State's request, the Contractor shall incorporate Bridges to Excellence Recognitions into clinician quality evaluations.

State's contracted vendors (PBM, EAP/BHO, HM/W, etc.) to address issues or concerns regarding coordination of care for individual members, particularly members with complex needs. In preparation for each call, the Contractor shall identify members and their issues/concerns, provide applicable documentation, including clinical information, to the appropriate State vendors, and develop recommendations for resolving the issue/concern. The PBM, EAP/BHO vendor, HM/W vendor and/or the State may also identify members.

- i. Unless otherwise directed by the State, qualified members of the Contractor's staff shall participate in conference calls with the State and representatives from the other third party administrator for medical services, the PBM, the EAP/BHO vendor, the HM/W vendor, the H&W Center vendor, and/or other State contracted vendors to improve coordination of their services to members.
- m. The Contractor shall obtain Health Plan Accreditation at a level of Commendable or Excellent by the National Committee for Quality Assurance (NCQA). If the Contractor is NCQA accredited as of the start date of this Contract, the Contractor shall maintain such accreditation throughout the term of this Contract. If the Contractor is not NCQA accredited, or is not currently accredited at the required level, for its products as of the start date of this Contract, the Contractor shall obtain such accreditation by December 31, 2016 (or a later date as specified by the State) and shall maintain it thereafter.
- n. The Contractor shall annually submit to the State a report, in a format approved by the State; with HEDIS results for its products utilized by the State (refer also to Contract Attachment C, Reporting Requirements).

A.6. Pharmacy

- c. The Contractor shall ensure that its network providers comply with the applicable drug utilization review and prior authorization requirements for office-administered, office-supplied specialty pharmacy products. The Contractor shall further ensure that its providers do not bill members for any claims that the Contractor rejects because of the provider's failure to comply with such requirements. Additionally, the Contractor shall provide its network providers with sufficient provider training, references and educational materials to ensure provider compliance.
- d. Except as provided in Contract Section A.6.a., above, the Contractor is not responsible for the provision or payment of outpatient pharmacy services. The state recognizes that some dispensing of specialty drugs will continue through the medical benefit, but seeks to reimburse providers for the provision of specialty drugs via our third party administrators of these contracts on an Average Sales Price plus (ASP+) model, refer to Contract Section C.3.f.
- f. Each year, the Contractor shall provide the State with a financial reconciliation to show that they have met the aggregate ASP+ percentage standard for the previous calendar year. ASP+ is calculated for every drug filled with a J-code where an ASP was published at time of fill. Using ASP as of the date of fill; $ASP\% = \text{Sum of Allowed Charges} / \text{Sum of (ASP times quantity)}$. This report shall be provided each year no later than the last business day in May unless otherwise approved by the State. (refer also to Contract Attachment C, Reporting Requirements).
- g. Each quarter the Contractor shall provide the State of Tennessee Benefits Administration with the dollar amount(s) that they and/or their PBM invoiced drug manufacturers for specialty drugs dispensed and paid for plan members that quarter. Once such amendments are in place, the Contractor shall also include depression screening in an adult wellness visit/physical as an element in any primary care chart reviews that it conducts. The goal is to assure accurate diagnosis, effective treatment and follow-up. The lowest effective level of staff-assisted depression care support consists of a screening nurse who advises primary care providers of positive screening results and provides a protocol that facilitates referral to behavioral health treatment. The provider must document in the medical chart the screening and any necessary follow up that has been performed using a nationally-recognized, validated, reliable screening instrument.

Such duplicate records are to be stored at a secure fire, flood, and theft-protected facility located away from the storage location of

the originals. The Contractor shall update duplicate records, at a minimum, on a daily basis and shall retain said records for a period of sixty (60) days from the date of creation. At the State's request, at the end of the term of this Contract or upon notice of termination of this Contract prior to the term date, the Contractor shall convey the original and the duplicate records medium and the information they contain to the State on or before the date of termination.

- h. Prior to implementing any major modification to or replacement of the Contractor's core information systems functionality and/or associated operating environment, the Contractor shall notify the State in writing of the change or modification within a reasonable amount of time (commensurate with the nature and effect of the change or modification) if the change or modification: (a) would affect the Contractor's ability to perform one or more of its obligations under this Contract; (b) would be visible to State system users, members and providers; (c) might have the effect of putting the Contractor in noncompliance with the provisions or substantive intent of the Plan Documents and/or this Contract; or (d) would materially reduce the benefits payable or services provided to the average member. If so directed by the State, the Contractor shall discuss the proposed change with the State/its designee prior to implementing the change. Subsequent to this discussion, the State may require the Contractor to demonstrate the readiness of the impacted systems prior to the effective date of the actual modification or replacement.

The controls shall be tested in periodic and spot audits following a methodology to be mutually agreed upon by the Contractor and the State.
 - (4) Audit trails shall be incorporated into all Systems to allow information on source data files and documents to be traced through the processing stages to the point where the information is finally recorded. The audit trails shall:

- i. Contain a unique log-on or terminal ID, the date, and time of any create/modify/delete action and, if applicable, the ID of the system job that effected the action;

A.20. Data Integration and Technical Requirements

- a. The Contractor shall maintain an electronic data interface with the State's Edison System for the purpose of processing State member enrollment information. The Contractor shall be responsible for providing and installing the hardware and software necessary. When the Contractor requires the exchange of PHI with the State of Tennessee, the State requires the use of second level authentication. This is accomplished using the State's standard software product, which supports Public Key Infrastructure (PKI). The Contractor shall design a solution, in coordination with the State, to connect to the State's Secure File Transfer Protocol (SFTP) server using a combination of the password and the authentication certificate. The initial sign-on and transmission testing will use a password. Certificate testing may also be performed during the test cycle. Subsequent production sign-on will be done using the authentication certificate. The Contractor will then download the file and decrypt the file in its secure environment. The State of Tennessee uses public key encryption with Advanced Encryption Standard (AES) to encrypt PHI. If the State adopts a different or additional encryption standard or tool in the future, the Contractor shall, with adequate notice, cooperate with the State to maintain the security of protected information according to all applicable State and Federal standards.
- b. Notwithstanding the requirement to maintain enrollment data, the Contractor shall not perform changes to enrollment data without the State's approval. This prohibition shall include, but not necessarily be limited to: initiation, termination, and/or changes of coverage.

The purpose of this data match will be to determine the extent to which the Contractor is maintaining its database of State members. The State will communicate results of this match to the Contractor, including any Contractor requirements, and associated timeframes, for resolving the discrepancies identified by the data match.
- f. CMS Data Match: The Contractor shall enter into an agreement with the Centers for Medicare and Medicaid Services (CMS) providing for a data match, no less frequent than monthly, of Contractor's full file of members against CMS Medicare files for purpose of determining the primary payer. Furthermore, the data match shall generate a report of all Medicare enrollees identified, if they have both parts A and B and the effective dates, which shall be shared with the State. The Contractor shall also provide a monthly report of all Local Government retirees who will become eligible for Medicare in the subsequent month (refer also to Contract Attachment C, Reporting Requirements).

A.23. Payment Reform

- a. The Contractor shall implement retrospective episode based reimbursement strategies in a manner and on a timeline approved by Benefits Administration (BA). This includes, but is not limited to:
 - (1) Implementing, as defined in A.23.a (6) below, episodes of care at a pace dictated by BA, likely up to 60 total episodes by the end of 2019 with approximately 5-8 new episodes, directed by BA, per six month period with appropriate lead time to allow for provider contracting. The first performance reports shall begin in January 2017 with the first reconciliation process in 2018;

- (2) Constructively participating in Payer Coalition meetings where Tennessee insurers discuss the design and implementation of payment reform;
- (3) Having clinical representatives attend Technical Advisory Group meetings to advise on the clinical design of episodes;
- (4) Participating in any other payment reform design processes and stakeholder processes as required by BA;
- (5) Using a retrospective payment process that is aligned, as directed by BA, with the Tennessee Episode Model of retrospective episodes. The Contractor may customize episode definitions as needed and prospective episodes, similar to the episodes implemented through the State's payment reform initiative, may be considered in lieu of retrospective episodes on a case-by-case basis as approved by BA;
- (6) Implementing key episode design choices as directed by BA, including:
 - i. Defining a principal accountable provider (PAP) to receive preview and performance reports and be eligible for rewards or subject to penalties;
 - ii. Adopting the definition of quality measures and their acceptable thresholds;
 - iii. Including care from multiple providers in the episode;
 - iv. Utilizing risk adjustment to reduce the impact of difference between patient age, morbidity, and other patient factors on the outcomes of the provider; and
 - v. Implementing a financial model that includes contractual rewards and penalties to providers based on the cost and quality of the episodes. The Contractor may set cost thresholds at their discretion.
- (7) Delivering preview and performance reports to providers detailing the provider's aggregate performance in meeting pre-defined cost and quality targets. The reports shall have a similar appearance and content as those designed by the State and payer coalition on the following timeline:
 - i. Quarterly preview reporting to all impacted providers for, at a minimum, Wave 1 and 2 episodes approved by BA beginning during the first quarter of 2016;
 - ii. Performance reporting to impacted providers for, at a minimum, Wave 1 and 2 episodes approved by BA, beginning by January 2017; and
 - iii. Reporting for future episode waves shall follow the specific episode implementation timelines as directed by BA.
- (8) Engaging in provider education and communication so providers understand the episode of care model and provider reports; and
- (9) For each episode chosen by BA, the Contractor shall require participation in episode based payments for all in-network providers who are expected to have at least 40 of these episodes of care across all of their commercial members in the upcoming performance period. The Contractor shall apply the episode model to any episode experienced by:
 - i. Public Sector Plan members by January 1, 2017;

- ii. At least fifty percent (50%) of the Contractor's fully insured members, and at least ten percent (10%) of the Contractor's self-insured ASO members (not including BA) by January 1, 2017; and
- iii. At least sixty percent (60%) of the Contractor's fully insured members, and at least fifteen percent (15%) of the Contractor's self-insured ASO members (not including BA) by January 1, 2019.

The Contractor shall provide a report after each of the above performance dates documenting achievement of the fully insured and self-insured ASO percentages.

- b. BA may grant exceptions to proposed deadlines upon request from the Contractor as deemed appropriate by BA. BA's decisions on these issues are final and not subject to appeal.
- c. The Contractor shall deliver quarterly financial estimates detailing estimated provider pay-outs and recouplements attributable to implemented episodes. The report shall be in a format determined by the State but, at a minimum, payments shall be categorized by plan.
- d. The Contractor shall deliver an annual financial report detailing total provider pay-outs and recouplements attributable to implemented episodes for the previous year. The report shall be in a format determined by the State but must include a breakdown by plan as well as enough information to verify that episodes are attributable to eligible Public Sector Plan members.

In the event that the funds are not appropriated or are otherwise unavailable, the State reserves the right to terminate this Contract upon written notice to the Contractor. The State's exercise of its right to terminate this Contract shall not constitute a breach of Contract by the State. Upon receipt of the written notice, the Contractor shall cease all work associated with the Contract. If the State terminates this Contract due to lack of funds availability, the Contractor shall be entitled to compensation for all conforming goods requested and accepted by the State and for all satisfactory and authorized services completed as of the termination date. Should the State exercise its right to terminate this Contract due to unavailability of funds, the Contractor shall have no right to recover from the State any actual, general, special, incidental, consequential, or any other damages of any description or amount.

In no event shall the State's exercise of its right to terminate this Contract for convenience relieve the Contractor of any liability to the State for any damages or claims arising under this Contract.
- D.6. Termination for Cause. If the Contractor fails to properly perform its obligations under this Contract, or if the Contractor materially violates any terms of this Contract ("Breach Condition"), the State shall provide written notice to Contractor specifying the Breach Condition. If within thirty (30) days of notice, the Contractor has not cured the Breach Condition, the State may terminate the Contract and withhold payments in excess of compensation for completed services or provided goods. Notwithstanding the above, the Contractor shall not be relieved of liability to the State for damages sustained by virtue of any breach of this Contract by the Contractor and the State may seek other remedies allowed at law or in equity for breach of this Contract.
- a. This opportunity to "cure" shall not apply to circumstances in which the Contractor intentionally withholds its services or otherwise refuses to perform. The State will not consider a request to cure contract performance where there have been repeated problems with respect to identical or similar issues, or if a cure period would cause a

delay that would impair the effectiveness of State operations. In circumstances where an opportunity to cure is not available, termination will be effective immediately.

D.7. Assignment and Subcontracting. The Contractor shall not assign this Contract or enter into a subcontract for any of the goods or services provided under this Contract without the prior written approval of the State. Notwithstanding any use of the approved subcontractors, the Contractor shall be the prime contractor and responsible for compliance with all terms and conditions of this Contract. The State reserves the right to request additional information or impose additional terms and conditions before approving an assignment of this Contract in whole or in part or the use of subcontractors in fulfilling the Contractor's obligations under this Contract.

D.8. Conflicts of Interest. The Contractor warrants that no part of the Contractor's compensation shall be paid directly or indirectly to an employee or official of the State of Tennessee as wages, compensation, or gifts in exchange for acting as an officer, agent, employee, subcontractor, or consultant to the Contractor in connection with any work contemplated or performed relative to this Contract.

The Contractor acknowledges, understands, and agrees that this Contract shall be null and void if the Contractor is, or within the past six (6) months has been, an employee of the State of Tennessee or if the Contractor is an entity in which a controlling interest is held by an individual who is, or within the past six (6) months has been, an employee of the State of Tennessee.

The Contractor hereby agrees, warrants, and assures that no person shall be excluded from participation in, be denied benefits of, or be otherwise subjected to discrimination in the performance of this Contract or in the employment practices of the Contractor on the grounds of handicap or disability, age, race, creed, color, religion, sex, national origin, or any other classification protected by federal or state law. The Contractor shall, upon request, show proof of nondiscrimination and shall post in conspicuous places, available to all employees and applicants, notices of nondiscrimination.

D.10. Prohibition of Illegal Immigrants. The requirements of Tenn. Code Ann. § 12-3-309 addressing the use of illegal immigrants in the performance of any Contract to supply goods or services to the state of Tennessee, shall be a material provision of this Contract, a breach of which shall be grounds for monetary and other penalties, up to and including termination of this Contract.

a. The Contractor hereby agrees that the Contractor shall not knowingly utilize the services of an illegal immigrant in the performance of this Contract and shall not knowingly utilize the services of any subcontractor who will utilize the services of an illegal immigrant in the performance of this Contract. The Contractor shall reaffirm this attestation, in writing, by submitting to the State a completed and signed copy of the document at Contract Attachment A, hereto, semi-annually during the Term. If the Contractor is a party to more than one contract with the State, the Contractor may submit one attestation that applies to all contracts with the State. All Contractor attestations shall be maintained by the Contractor and made available to state officials upon request.

b. Prior to the use of any subcontractor in the performance of this Contract, and semi-annually thereafter, during the Term, the Contractor shall obtain and retain a current, written attestation that the subcontractor shall not knowingly utilize the services of an illegal immigrant to perform work under this Contract and shall not knowingly utilize the services of any subcontractor who will utilize the services of an illegal immigrant to perform work under this Contract. Attestations obtained from such subcontractors shall be maintained by the Contractor and made available to state officials upon request.

c. The Contractor shall maintain records for all personnel used in the performance of this Contract. Contractor's records shall be subject to review and random inspection at any reasonable time upon reasonable notice by the State.

- d. The Contractor understands and agrees that failure to comply with this section will be subject to the sanctions of Tenn. Code Ann. § 12-3-309 for acts or omissions occurring after its effective date.
- e. For purposes of this Contract, "illegal immigrant" shall be defined as any person who is not : (i) a United States citizen; (ii) a Lawful Permanent Resident; (iii) a person whose physical presence in the United States is authorized; (iv) allowed by the federal Department of Homeland Security and who, under federal immigration laws or regulations, is authorized to be employed in the U.S.; or (v) is otherwise authorized to provide services under the Contract.
- D.11. Records. The Contractor shall maintain documentation for all charges under this Contract. The books, records, and documents of the Contractor, for work performed or money received under this Contract, shall be maintained for a period of five (5) full years from the date of the final payment and shall be subject to audit at any reasonable time and upon reasonable notice by the State, the Comptroller of the Treasury, or their duly appointed representatives. The financial statements shall be prepared in accordance with generally accepted accounting principles.
- D.12. Monitoring. The Contractor's activities conducted and records maintained pursuant to this Contract shall be subject to monitoring and evaluation by the State, the Comptroller of the Treasury, or their duly appointed representatives.
- D.13. Progress Reports. The Contractor shall submit brief, periodic, progress reports to the State as requested.
- D.14. Strict Performance. Failure by any Party to this Contract to require, in any one or more cases, the strict performance of any of the terms, covenants, conditions, or provisions of this Contract shall not be construed as a waiver or relinquishment of any term, covenant, condition, or provision. No term or condition of this Contract shall be held to be waived, modified, or deleted except by a written amendment signed by the Parties.
- D.15. Independent Contractor. The parties shall not act as employees, partners, joint venturers, or associates of one another. The Parties are independent contracting entities. Nothing in this Contract shall be construed to create an employer/employee relationship or to allow either Party to exercise control or direction over the manner or method by which the other transacts its business affairs or provides its usual services. The employees or agents of one Party are not employees or agents of the other Party.
- D.16. Patient Protection and Affordable Care Act. The Contractor agrees that it will be responsible for compliance with the Patient Protection and Affordable Care Act ("PPACA") with respect to itself and its employees, including any obligation to report health insurance coverage, provide health insurance coverage, or pay any financial assessment, tax, or penalty for not providing health insurance. The Contractor shall indemnify the State and hold it harmless for any costs to the State arising from Contractor's failure to fulfill its PPACA responsibilities for itself or its employees.
- D.17. Limitation of State's Liability. The State shall have no liability except as specifically provided in this Contract. In no event will the State be liable to the Contractor or any other party for any lost revenues, lost profits, loss of business, decrease in the value of any securities or cash position, time, money, goodwill, or any indirect, special, incidental, punitive, exemplary or consequential damages of any nature, whether based on warranty, contract, statute, regulation, tort (including but not limited to negligence), or any other legal theory that may arise under this Contract or otherwise. The State's total liability under this Contract (including any exhibits, schedules, amendments or other attachments to the Contract) or otherwise shall under no circumstances exceed the Maximum Liability. This limitation of liability is cumulative and not per incident.

- D.18. Limitation of Contractor's Liability. In accordance with Tenn. Code Ann. § 12-3-701, the Contractor's liability for all claims arising under this Contract shall be limited to an amount equal to two (2) times the Maximum Liability amount detailed in Section C.1. and as may be amended, PROVIDED THAT in no event shall this Section limit the liability of the Contractor for intentional torts, criminal acts, fraudulent conduct, or omissions that result in personal injuries or death.
- D.19. Hold Harmless. The Contractor agrees to indemnify and hold harmless the State of Tennessee as well as its officers, agents, and employees from and against any and all claims, liabilities, losses, and causes of action which may arise, accrue, or result to any person, firm, corporation, or other entity which may be injured or damaged as a result of acts, omissions, or negligence on the part of the Contractor, its employees, or any person acting for or on its or their behalf relating to this Contract. The Contractor further agrees it shall be liable for the reasonable cost of attorneys for the State to enforce the terms of this Contract.

In the event of any suit or claim, the Parties shall give each other immediate notice and provide all necessary assistance to respond. The failure of the State to give notice shall only relieve the Contractor of its obligations under this Section to the extent that the Contractor can demonstrate actual prejudice arising from the failure to give notice. This Section shall not grant the Contractor, through its attorneys, the right to represent the State in any legal matter, as the right to represent the State is governed by Tenn. Code Ann. § 8-6-106.

- D.20. HIPAA and HITECH Compliance. The State and Contractor shall comply with obligations under the Health Insurance Portability and Accountability Act of 1996 (HIPAA), Health Information Technology for Economic and Clinical Health (HITECH) Act under the American Recovery and Reinvestment Act of 2009 (ARRA) and their accompanying regulations, as well as any other relevant laws and regulations regarding privacy.

 - c. The Contractor agrees that its duties under this contract qualify it as a "business associate" of the State as that term is defined under HIPAA. Contractor will sign the State's business associate agreement, which is attached as Attachment E. The State, in its discretion may, accept changes to the business associate agreement if it finds that such changes are appropriate, or may determine that HIPAA does not require a business associate agreement.
 - d. The Contractor will indemnify the State and hold it harmless for any violation by the Contractor or its subcontractors of HIPAA and HITECH as well as any other relevant laws and regulations regarding privacy. This includes the costs of responding to a breach of protected health information, the costs of responding to a government enforcement action related to the breach, and any fines, penalties, or damages paid by the State because of

the violation. The Contractor may also be liable for damages for failure to comply with this section, including any applicable liquidated damages set forth in Attachment B.

- D.21. Tennessee Consolidated Retirement System. Subject to statutory exceptions contained in Tenn. Code Ann. §§ 8-36-801, *et seq.*, the law governing the Tennessee Consolidated Retirement System ("TCRS"), provides that if a retired member of TCRS, or of any superseded system administered by TCRS, or of any local retirement fund established under Tenn. Code Ann. §§ 8-35-101, *et seq.*, accepts State employment, the member's retirement allowance is suspended during the period of the employment. Accordingly and notwithstanding any provision of this Contract to the contrary, the Contractor agrees that if it is later determined that the true nature of the working relationship between the Contractor and the State under this Contract is that of "employee/employer" and not that of an independent contractor, the Contractor, if a retired member of TCRS, may be required to repay to TCRS the amount of retirement benefits the Contractor received from TCRS during the Term.
- D.22. Tennessee Department of Revenue Registration. The Contractor shall comply with all applicable registration requirements contained in Tenn. Code Ann. §§ 67-6-601 – 608. Compliance with applicable registration requirements is a material requirement of this Contract.

 - b. have not within a three (3) year period preceding this Contract been convicted of, or had a civil judgment rendered against them from commission of fraud, or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (federal, state, or local) transaction or grant under a public transaction; violation of federal or state antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification, or destruction of records, making false statements, or receiving stolen property;

- D.24. Force Majeure. "Force Majeure Event" means fire, flood, earthquake, elements of nature or acts of God, wars, riots, civil disorders, rebellions or revolutions, acts of terrorism or any other similar cause beyond the reasonable control of the Party except to the extent that the non-performing Party is at fault in failing to prevent or causing the default or delay, and provided that the default or delay cannot reasonably be circumvented by the non-performing Party through the use of alternate sources, workaround plans or other means. A strike, lockout or labor dispute shall not excuse either Party from its obligations under this Contract. Except as set forth in this Section, any failure or delay by a Party in the performance of its obligations under this Contract arising from a Force Majeure Event is not a default under this Contract or grounds for termination. The non-performing Party will be excused from performing those obligations directly affected by the Force Majeure Event, and only for as long as the Force Majeure Event continues, provided that the Party continues to use diligent, good faith efforts to resume performance without delay. The

occurrence of a Force Majeure Event affecting Contractor's representatives, suppliers, subcontractors, customers or business apart from this Contract is not a Force Majeure Event under this Contract. Contractor will promptly notify the State of any delay caused by a Force Majeure Event (to be confirmed in a written notice to the State within one (1) day of the inception of the delay) that a Force Majeure Event has occurred, and will describe in reasonable detail the nature of the Force Majeure Event. If any Force Majeure Event results in a delay in Contractor's performance longer than forty-eight (48) hours, the State may, upon notice to Contractor: (a) cease payment of the fees until Contractor resumes performance of the affected obligations; or (b) immediately terminate this Contract or any purchase order, in whole or in part, without further payment except for fees then due and payable. Contractor will not increase its charges under this Contract or charge the State any fees other than those provided for in this Contract as the result of a Force Majeure Event.

This Contract supersedes any and all prior understandings, representations, negotiations, and agreements between the parties relating hereto, whether written or oral.
- D.28. Severability. If any terms and conditions of this Contract are held to be invalid or unenforceable as a matter of law, the other terms and conditions of this Contract shall not be affected and shall remain in full force and effect. The terms and conditions of this Contract are severable.
- D.29. Headings. Section headings of this Contract are for reference purposes only and shall not be construed as part of this Contract.
- D.30. Incorporation of Additional Documents. Each of the following documents is included as a part of this Contract by reference. E.4. Ownership of Software and Work Products.

a. Definitions.

- (1) "Contractor-Owned Software," shall mean commercially available software the rights to which are owned by Contractor, including but not limited to commercial "off-the-shelf" software which is not developed using State's money or resources.
- (2) "Custom-Developed Application Software," shall mean customized application software developed by Contractor solely for State.

- (3) "Rights Transfer Application Software," shall mean any pre-existing application software owned by Contractor or a third party, provided to State and to which Contractor will grant and assign, or will facilitate the granting and assignment of, all rights, including the source code, to State.
 - (4) "Third-Party Software," shall mean software not owned by the State or the Contractor.
 - (5) "Work Product," shall mean all deliverables exclusive of hardware, such as software, software source code, documentation, planning, etc., that are created, designed, developed, or documented by the Contractor exclusively for the State during the course of the project using State's money or resources, including Custom-Developed Application Software. If the deliverables under this Contract include Rights Transfer Application Software, the definition of Work Product shall also include such software. Work Product shall not include Contractor-Owned Software or Third-Party Software.
- b. Rights and Title to the Software
- (1) All right, title and interest in and to the Contractor-Owned Software shall at all times remain with Contractor, subject to any license granted under this Contract.
 - (2) All right, title and interest in and to the Work Product, and to modifications thereof made by State, including without limitation all copyrights, patents, trade secrets and other intellectual property and other proprietary rights embodied by and arising out of the Work Product, shall belong to State. To the extent such rights do not automatically belong to State, Contractor hereby assigns, transfers, and conveys all right, title and interest in and to the Work Product, including without limitation the copyrights, patents, trade secrets, and other intellectual property rights arising out of or embodied by the Work Product. Contractor and its employees, agents, contractors or representatives shall execute any other documents that State or its counsel deem necessary or desirable to document this transfer or allow State to register its claims and rights to such intellectual property rights or enforce them against third parties.
 - (3) All right, title and interest in and to the Third-Party Software shall at all times remain with the third party, subject to any license granted under this Contract.
- c. The Contractor may use for its own purposes the general knowledge, skills, experience, ideas, concepts, know-how, and techniques obtained and used during the course of performing under this Contract. The Contractor may develop for itself, or for others, materials which are similar to or competitive with those that are produced under this Contract.
- E.5. State Furnished Property. The Contractor shall be responsible for the correct use, maintenance, and protection of all articles of nonexpendable, tangible, personal property furnished by the State for the Contractor's temporary use under this Contract. Upon termination of this Contract, all property furnished shall be returned to the State in good order and condition as when received, reasonable use and wear thereof excepted. Should the property be destroyed, lost, or stolen, the Contractor shall be responsible to the State for the residual value of the property at the time of loss.
- E.6. Contractor Commitment to Diversity. The Contractor shall comply with and make reasonable business efforts to exceed the commitment to diversity represented by the Contractor's proposal responding to RFP # 317816-00104 (Attachment 6.2 Section B.15) and resulting in this Contract.

The Contractor shall assist the State in monitoring the Contractor's performance of this commitment by providing, as requested, a quarterly report of participation in the performance of this Contract by small business enterprises and businesses owned by minorities, women, and persons with a disability. Such reports shall be provided to the state of Tennessee Governor's Office of Business Diversity Enterprise in form and substance as required by said office.

E.7. Breach. A party shall be deemed to have breached the Contract if any of the following occurs:

- failure to perform in accordance with any term or provision of the Contract;
- partial performance of any term or provision of the Contract;
- any act prohibited or restricted by the Contract, or
- violation of any warranty.

For purposes of this Contract, these items shall hereinafter be referred to as a "Breach."

a. Contractor Breach— The State shall notify Contractor in writing of a Breach.

- (1) In event of a Breach by Contractor, the State shall have available the remedy of Actual Damages and any other remedy available at law or equity.
- (2) Liquidated Damages— In the event of a Breach, the State may assess Liquidated Damages as detailed in Contract Attachment B. The State shall notify the Contractor of amounts to be assessed as Liquidated Damages. The parties agree that due to the complicated nature of the Contractor's obligations under this Contract it would be difficult to specifically designate a monetary amount for a Breach by Contractor as said amounts are likely to be uncertain and not easily proven. Contractor hereby represents and covenants it has carefully reviewed the Liquidated Damages contained in above referenced Contract Attachment B and agree that said amounts represent a reasonable relationship between the amount and what might reasonably be expected in the event of Breach, and are a reasonable estimate of the damages that would occur from a Breach. It is hereby agreed between the parties that the Liquidated Damages represent solely the damages and injuries sustained by the State in losing the benefit of the bargain with Contractor and do not include any injury or damage sustained by a third party. The Contractor agrees that the liquidated damage amount is in addition to any amounts Contractor may owe the State pursuant to the indemnity provision or other section of this Contract.

The State may continue to withhold the Liquidated Damages or a portion thereof until the Contractor cures the Breach, the State exercises its option to declare a Partial Default, or the State terminates the Contract. The State is not obligated to assess Liquidated Damages before availing itself of any other remedy. The State may choose to discontinue Liquidated Damages and avail itself of any other remedy available under this Contract or at law or equity; provided, however, Contractor shall receive a credit for said Liquidated Damages previously withheld except in the event of a Partial Default.

The State may conduct "secret shopper" and other monitoring activities during the operation of this Contract. The State may also assess liquidated damages for breaches of contract that it discovers during these and other activities as detailed in Contract Attachment B.

- (3) Partial Default— In the event of a Breach, the State may declare a Partial Default. In which case, the State shall provide the Contractor written notice of: (1) the date which Contractor shall terminate providing the service associated with the Breach; and (2) the date the State will begin to provide the service

associated with the Breach. The Notice of Partial Default and termination of services associated with the Breach shall advise the Contractor whether the State will provide an opportunity to cure. Notwithstanding the foregoing, the State may revise the time periods contained in the notice written to the Contractor.

In the event the State declares a Partial Default, the State may withhold, together with any other damages associated with the Breach, from the amounts due the Contractor the greater of: (1) amounts which would be paid the Contractor to provide the defaulted service; or (2) the cost to the State of providing the defaulted service, whether said service is provided by the State or a third party. To determine the amount the Contractor is being paid for any particular service, the Department shall be entitled to receive within five (5) days any requested material from Contractor. The State shall make the final and binding determination of said amount.

The State may assess Liquidated Damages against the Contractor for any failure to perform which ultimately results in a Partial Default with said Liquidated Damages to cease when said Partial Default is effective. Upon Partial Default, the Contractor shall have no right to recover from the State any actual, general, special, incidental, consequential, or any other damages whatsoever of any description or amount. Contractor agrees to cooperate fully with the State in the event a Partial Default is taken.

- (4) **Contract Termination**— In the event of a Breach, the State may terminate the Contract immediately or in stages. The Contractor shall be notified of the termination in writing by the State. Said notice shall hereinafter be referred to as Termination Notice. The Termination Notice may specify either that the termination is to be effective immediately, on a date certain in the future, or that the Contractor shall cease operations under this Contract in stages. In the event of a termination, the State may withhold any amounts which may be due Contractor without waiver of any other remedy or damages available to the State at law or at equity. The Contractor shall be liable to the State for any and all damages incurred by the State and any and all expenses incurred by the State which exceed the amount the State would have paid Contractor under this Contract. Contractor agrees to cooperate with the State in the event of a Contract Termination or Partial Takeover.

The Termination Notice must (1) specify in reasonable detail the nature of the Breach; (2) provide Contractor with an opportunity to cure, which shall be no less than 30 days from the date of the Termination Notice; (3) shall specify the effective date of termination in the event Contractor fails to correct the Breach. The Contractor shall present the State with a written request detailing the efforts it will take to resolve the problem. This opportunity to "cure" shall not apply to circumstances in which the Contractor intentionally withholds its services or otherwise refuses to perform. The State will not consider a request to cure contract performance where there have been repeated problems with respect to identical or similar issues, or if a cure period would cause a delay that would impair the effectiveness of State operations.

- b. **State Breach**— In the event of a Breach of Contract by the State, the Contractor shall notify the State in writing within 30 days of any Breach of Contract by the State. Said notice shall contain a description of the Breach. Failure by the Contractor to provide said written notice shall operate as an absolute waiver by the Contractor of the State's Breach. In no event shall any Breach on the part of the State excuse the Contractor from full performance under this Contract. In the event of Breach by the State, the Contractor

may avail itself of any remedy at law in the forum with appropriate jurisdiction; provided, however, failure by the Contractor to give the State written notice and opportunity to cure as described herein operates as a waiver of the State's Breach. Failure by the Contractor to file a claim before the appropriate forum in Tennessee with jurisdiction to hear such claim within one (1) year of the written notice of Breach shall operate as a waiver of said claim in its entirety. It is agreed by the parties this provision establishes a contractual period of limitations for any claim brought by the Contractor.

- E.8. Overpayments. The Contractor shall have responsibility for overpayments to its providers resulting from the negligent, reckless, or willful acts or omissions of the Contractor, its officers, agents or employees, regardless of whether or not such overpayments can be recovered by the Contractor. The Contractor shall repay the State the amount of any such overpayment within thirty (30) calendar days of discovery of the overpayment. Overpayments due to provider fraud or fraud of any other type, other than fraud by employees or agents of the Contractor, will not be considered overpayments for purposes of this Section. The Contractor shall assist in identifying fraud and make reasonable efforts, in consultation with the State, to recover overpayments due to fraud.
- E.9. Confidential and Proprietary Information. The State agrees to protect, to the fullest extent permitted by state law, the confidentiality of information expressly identified by the Contractor as confidential and proprietary, including information that would allow a person to obtain unauthorized access to confidential information or to electronic information processing systems owned by or licensed to the State.
- E.10. Personally Identifiable Information. While performing its obligations under this Contract, Contractor may have access to Personally Identifiable Information held by the State ("PII"). For the purposes of this Contract, "PII" includes "Nonpublic Personal Information" as that term is defined in Title V of the Gramm-Leach-Bliley Act of 1999 or any successor federal statute, and the rules and regulations thereunder, all as may be amended or supplemented from time to time ("GLBA") and personally identifiable information and other data protected under any other applicable laws, rule or regulation of any jurisdiction relating to disclosure or use of personal information ("Privacy Laws"). Contractor agrees it shall not do or omit to do anything which would cause the State to be in breach of any Privacy Laws. Contractor shall, and shall cause its employees, agents and representatives to: (i) keep PII confidential and may use and disclose PII only as necessary to carry out those specific aspects of the purpose for which the PII was disclosed to Contractor and in accordance with this Contract, GLBA and Privacy Laws; and (ii) implement and maintain appropriate technical and organizational measures regarding information security to: (A) ensure the security and confidentiality of PII; (B) protect against any threats or hazards to the security or integrity of PII; and (C) prevent unauthorized access to or use of PII. Contractor shall immediately notify State: (1) of any disclosure or use of any PII by Contractor or any of its employees, agents and representatives in breach of this Contract; and (2) of any disclosure of any PII to Contractor or its employees, agents and representatives where the purpose of such disclosure is not known to Contractor or its employees, agents and representatives. The State reserves the right to review Contractor's policies and procedures used to maintain the security and confidentiality of PII and Contractor shall, and cause its employees, agents and representatives to, comply with all reasonable requests or directions from the State to enable the State to verify and/or procure that Contractor is in full compliance with its obligations under this Contract in relation to PII. Upon termination or expiration of the Contract or at the State's direction at any time in its sole discretion, whichever is earlier, Contractor shall immediately return to the State any and all PII which it has received under this Contract and shall destroy all records of such PII.

The Contractor shall report to the State any instances of unauthorized access to or potential disclosure of PII in the custody or control of Contractor ("Unauthorized Disclosure") that come to the Contractor's attention. Any such report shall be made by the Contractor within twenty-four (24) hours after the Unauthorized Disclosure has come to the attention of the Contractor.

Contractor shall take all necessary measures to halt any further Unauthorized Disclosures. The Contractor, at the sole discretion of the State, shall provide no cost credit monitoring services for individuals whose PII was affected by the Unauthorized Disclosure. The Contractor shall bear the cost of notification to all individuals affected by the Unauthorized Disclosure, including individual letters and public notice. The remedies set forth in this Section are not exclusive and are in addition to any claims or remedies available to this State under this Contract or otherwise available at law.

CONTRACT ATTACHMENT B

PERFORMANCE GUARANTEES AND LIQUIDATED DAMAGES

To effectively manage contractual performance, the State has established performance guarantees to evaluate the Contractor's obligations with respect to the Contract(s) (where the Contractor has been awarded multiple regional contracts). The Contractor is expected to perform according to a certain level of standards. If these standards are not met, the State is entitled to impose liquidated damage assessments. The list of Performance Guarantees and associated Liquidated Damages are included in this Attachment.

1. **Performance Reporting:** The Contractor shall develop a Performance Report Card as a means to measure compliance on a quarterly basis. The Contractor shall provide the quarterly performance report card in a manner acceptable to the State, on or before the 20th day of the month following the reporting quarter. Supporting documentation used to calculate the performance guarantees shall be provided with the Performance Report Card. The Performance Report Card shall include cumulative data over the life of the contract. Performance reporting shall be consolidated as one report for all regional contracts awarded to the Contractor.
2. **Payment of Liquidated Damages:** It is agreed by the State and the Contractor that any liquidated damages assessed by the State shall be due and payable to the State within forty-five (45) calendar days after Contractor receipt of the Invoice containing an assessment of liquidated damages. If payment is not made by the due date, said liquidated damages may be withheld from future payments by the State without further notice.
3. **Maximum Assessment:** The maximum amount of Liquidated Damages payable over any twelve (12) month period shall not exceed twenty percent (20%) of the annual fixed price billings. In the event that a single occurrence subjects the Contractor to Liquidated Damages in multiple subsections of this provision, the State is entitled to assess a single Liquidated Damage selected at the discretion of the State.
4. **Waiver of Liquidated Damages:** The State, in its sole discretion, may elect not to assess Liquidated Damages against the Contractor in certain instances, including but not limited to the following:
 - a. Where the State determines that only inconsequential damage has occurred, unless the deficiency is part of a recurring or frequent pattern of deficiency, with regard to one (1) or more Contract deliverables or requirements
 - b. For performance measures that are resolved based on the Contractor's corrective action plan
 - c. If the failure is not due to Contractor fault (i.e. caused by factors beyond the reasonable control and without any material error or negligence of the Contractor, its staff or subcontractors)
 - d. Where no damage or injury has been sustained by the State or its members
 - e. Where the failure does not result in increased Contract management time or expense
 - f. Where the failure results from the State's failure to perform
 - g. For other reasons at the State's sole discretion
5. **Performance Guarantees:** In the event that the Contractor has failed to meet a performance guarantee that is set out in the Contract, but for which the Liquidated Damage standards are not spelled out in this Attachment, the State may assess liquidated damages at the rate of five hundred dollars (\$500.00) per business day until the guarantee has been met.
6. The Contractor shall pay to the State the indicated total dollar assessment upon notification by the State that an amount is due, through the term of this Contract.

7. Performance guarantees shall be measured specific to the Public Sector Plans. If prior approved by the State in writing, they may be measured on the Contractor's book of business.
