

## TennCare Benefit Packages

The card that you get from your health plan (sometimes called a Managed Care Organization, or MCO) may have a letter on the front. Look on the front of your health plan card. The letter, **A-M**, will tell you what kind of care TennCare covers for you. The letter is called a **Benefit Indicator**. It also tells your doctors what kind of care is covered for you.

Look at your letter on the chart below to see more information on your benefits.

“Long-term care” is care that is delivered in a nursing facility, including special nursing facilities for people with intellectual and developmental disabilities. Long-term care can also include certain services and supports that are delivered in the home or community.

“CHOICES” is a special long-term care program offered by the health plans (MCOs) to people who need nursing facility care or who are at risk of needing nursing facility care. For people who qualify for CHOICES, this care may be provided in a nursing facility or in the home or community.

Please see <https://tn.gov/tenncare/section/long-term-services-supports> for general information about long-term care in TennCare. See <https://www.tn.gov/tenncare/long-term-services-supports/choices/to-qualify-for-choices.html> for more information about TennCare CHOICES in Long-Term Care.

If you have any questions about your TennCare services, call your health plan. The phone number for your health plan can be found here: <https://www.tn.gov/tenncare/members-applicants/managed-care-organizations.html>.
